

SECURITY POLICY

This Security Policy applies to all payment information submitted to Central Coast Car Market Pty Ltd via the website located at www.centralcoastcarmarket.com.au .

How to contact us about security

The security of the information that you provide is very important to us. For that reason, please read the following details carefully (in conjunction with our Privacy Policy) and get in contact with us if you have any questions. You can contact us at info@wyongchamber.com.au .

Online Payments

Your on-line payment is processed via a secure payment system called SecurePay. No credit card transaction details are captured or stored by us.

All transaction details are encrypted with SSL technology and securely transmitted for credit card processing approval. The encryption SSL utilised is certified to SHA-256 using the latest in safe cryptographic key sizes and hashing algorithms.

Secure web pages display a lock icon to confirm that they are secure, and their URL starts with "https" rather than "http". You should ensure that these details appear on any page where you are entering your information, and you will need to check that your browser supports SSL.

The eCommerce engine used by the Central Coast Car Market is provided by Adobe Business Catalyst. The eCommerce engine or application undergoes an annual bank mandated PCI audits to obtain & maintain the Level 1 PCI DSS compliant certification which is the highest tier of compliance.

The secure zone login area and all web pages within the secure zone are protected and require a unique username and password combination for access. We cannot view your password as it uses a strong hash algorithm.

Public computers are at greater risk of not being secure, as they may contain viruses or spyware, and we recommend that you do not use them for making payments on our website. If you do use a public computer, always ensure that you log off and shut down the browser when you have finished.
